In the age of artificial intelligence, the integration of Generative AI (GenAI) and Large Language Models (LLMs) into various sectors has revolutionized how organizations operate. However, this technological advancement also brings with it significant data protection challenges. This event aims to explore these challenges and provide actionable insights for managing data protection in an AI-powered world.

Organized by the Association of Information Security Professionals (AiSP), the AiSP Data & Privacy Workshop is a unique event that delves into the critical intersection of Data & Privacy

Our theme for this year summit is “Data Protection in an AI-powered World”.

Event Date: 24 July 2024  
Event Time: 1.30PM – 6PM

## New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
