**A PROACTIVE APPROACH TO
PROTECTING PUBLIC-FACING INFRASTRUCTURE**

 18 January 2024, Thursday

 3pm - 5pm (Registration start at 2.30pm)

 Marina Square

REGISTER NOW!

You would have heard in the news about DDoS attacks, websites being down due to attacks. With advanced adoption of generative AI, it is very challenging to keep up with targeted adversary campaigns.

Securing and managing infrastructure with actionable insights is critical to our enterprise resiliency and spans beyond cyber resilience to include financial and operational resiliency. In addition to resiliency, driving efficiency into our infrastructure management is also a step towards your ESG program – ensuring our digital transformation limits impact to our environment.

We look forward to seeing you in person! If you have any queries, please feel free to contact AiSP Secretariat at secretariat@aisp.sg

Join as Career Mentors for NTUC Mentors Community!

We firmly believe that nurturing talent and fostering professional growth for the youth and PMEs are pivotal to our organization's success in membership and mindshare. Mentorship is a cornerstone in achieving these goals, and your department plays a crucial role in the success of MCE.

For Your Mentors: We invite your mentors to come on board and to share their wealth of knowledge and expertise.

By participating as mentors in our ecosystem, they will have the opportunity to:

1. **Make an Impact:** Mentorship is a meaningful way to give back to the society and guide the next generation of talent.
2. **Personal Growth:** Being a mentor provides personal and professional growth opportunities by attending training tailored for them.
3. **Networking:** Mentors can expand their professional network by connecting with other mentors from diverse backgrounds and experiences.

For mentors who are interested in participating, please register below. We will work closely with you to ensure a smooth onboarding process.

We truly believe that together, we can create a dynamic and supportive environment that empowers our workers to better life, better welfare, and better job prospect.

Personality and its Impact on Security Behaviors Survey

The purpose of the survey is to examine how demographics and personality traits influence the security intention of security intention of device securement, password generation, proactive awareness, updating and expanded our study to include multi-factor authentication.

We believe that the results from this survey and study have practical implications as they can help identify groups of users with stronger or weaker security behaviours which are useful in talent identification, education outreach planning as well as helping to guide future research.

Please complete this survey by 31st Jan 2024.

Professional Course Development

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
