AiSP has set up a Special Interest Group - Legal Investigative Technology Experts (LITE). Our Vision is to provide a platform for AiSP members who are keen in the investigations space, specialising in the realms of digital forensic / e-Discovery, to participate in and benefit from each other's expertise, so as to create a vibrant and dynamic ecosystem.

Join us for an enlightening panel discussion that delves into the daily responsibilities and challenges faced by Digital Forensic / e-Discovery specialists in the public sector, consulting, and as an in-house practitioner. This session will provide a behind-the-scenes look at the critical work conducted by these specialists in the realm of the digital, legal, and investigative landscape.

Date: 3 October 2024, Thursday

Time: 6PM – 8.30PM

Venue: JustCo @ Marina Square

AJCCA Conference 2024 17 October 2024

The International Conference on ASEAN-JAPAN Cybersecurity Community (IC-AJCC) was held in 2023 in Tokyo. At the Conference, 8 associations of Southeast Asian Nations members and Japan agreed to a private sector cybersecurity collaboration and the ASEAN Japan Cybersecurity Community Alliance (AJCCA) was established. This year, AJCCA Conference 2024 will be held in Singapore on 17 October 2024.

The ASEAN Japan Cybersecurity Community Alliance (AJCCA) is a collaborative initiative formed by nine leading cybersecurity communities from ASEAN nations and Japan. AJCCA is dedicated to enhancing cybersecurity capabilities, information sharing, and mutual support among its member nations to address the evolving challenges in the digital landscape.

Date: 17 October 2024

Time: 9am - 4pm

Location: Suntec Convention & Exhibition Centre

AiSP x wizlynx group x KnowBe4 – The Human Factor: Your Strongest Defence Against Next-Gen Cyber Threats 14 November 2024

Gartner reports that 93% of organisations are using or considering Generative AI (GenAI) at work. While beneficial, this technology also presents new cybersecurity challenges.

Cyber adversaries are using GenAI to create sophisticated social engineering attacks, including convincing phishing emails and deepfakes. Verizon's 2023 Data Breach Investigations Report reveals that 74% of data breaches stem from social engineering and human error.

To combat these next-generation threats, organisations must build a strong security culture. This involves implementing robust technical defences and empowering employees to be the first line of defence against cyber-attacks.

On 14 November, join wizlynx group and KnowBe4 to learn how you can cultivate a resilient security culture in your organisation. Learn strategies to educate and empower your workforce, enabling them to make smarter security decisions and protect your organisation from evolving cyber threats.

Date: 14 November 2024, Thursday
Time: 2.30PM – 6PM
Venue: JustCo @ Marina Square

The State of Enterprise DFIR Survey Now – 4 October 2024

Take part in Magnet Forensics' State of Enterprise DFIR survey

No one knows enterprise DFIR like those who are living it day in and day out. There are a lot of unique insights to be shared with others in the field—and this is your chance to share what you're seeing.

Magnet Forensics has just opened their survey for the fifth annual State of Enterprise DFIR Report, a survey that should take approximately 20 minutes to complete and will provide results that will be extremely valuable to anyone in the enterprise DFIR space.

You'll have until October 4th, 2024, to participate. Your responses will be collected with those from other respondents to create the report and we'll share the results in early 2025 so that you can get a snapshot into where things sit in the industry.

Magnet Forensics will be utilizing Dig Insights, a global research firm, to administer the survey and collect the data. Upon completion, you'll be entered to win a free pass to Magnet User Summit 2025* or [win one of ten \\$100 Amazon gift cards](#) if you choose to opt-in to the draw with your email address.

This survey will be open until October 4th, 2024. When you're done, feel free to share it with your DFIR network! The more responses collected, the more representative our annual report will be.

NTUC Mentorship Ecosystem Volunteer as an Industry Mentor

On behalf of NTUC, we are keen to invite you to volunteer as an Industry Mentor under the NTUC Mentorship Ecosystem.

In our daily interactions with different segments of the workforce including youths, many have sounded out the need for career mentors. As a mentor, you can leverage on your industry and working experience to pay-it-forward and have meaningful conversations to share your expertise and guidance with individuals who would appreciate career navigation support and deeper insights into different roles in the workforce today. In return, as you support mentees, the NTUC Mentorship Ecosystem will support you with networks, training, and a community of peer support.

We sincerely hope you'll be a part of this movement and be a catalyst of change.

Click on [this link](#) to apply.

Please feel free to reach out to NTUC at ntucmentorship@ntuc.org.sg.

CyberBoost Pre-Boost Accelerator Programme

What is CyberBoost Pre-Boost?

CyberBoost is a suite of supporting programs jointly organized by [NUS Enterprise](#) and [CSA](#), supported by [Plug and Play](#), that caters to companies at different stages of growth, providing different entry points for bespoke support.

As part of [CyberBoost Pre-Boost programme](#), you will undergo a structured 3-month program training, with 6 months venture support, taking your idea to market and even commercialization! You would also be able to receive dedicated mentorship from industrial professionals who are practitioners, business consultation advice from NUS Enterprise experts and even CSA, as well as a space for you to work out of in order to develop your idea or product.

Additionally, workshops and training are integrated into the program to equip you with knowledge spanning across fundraising, market access and even polishing your deck to be pitch-perfect, priming your venture building and growth.

New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.

Special discount available for AiSP members, email aisp@wissen-intl.com for details!
