## Join as Career Mentors for NTUC Mentors Community!

We firmly believe that nurturing talent and fostering professional growth for the youth and PMEs are pivotal to our organization's success in membership and mindshare. Mentorship is a cornerstone in achieving these goals, and your department plays a crucial role in the success of MCE.

For Your Mentors: We invite your mentors to come on board and to share their wealth of knowledge and expertise.

By participating as mentors in our ecosystem, they will have the opportunity to:

1. **Make an Impact:** Mentorship is a meaningful way to give back to the society and guide the next generation of talent.
2. **Personal Growth:** Being a mentor provides personal and professional growth opportunities by attending training tailored for them.
3. **Networking:** Mentors can expand their professional network by connecting with other mentors from diverse backgrounds and experiences.

For mentors who are interested in participating, please register below. We will work closely with you to ensure a smooth onboarding process.

We truly believe that together, we can create a dynamic and supportive environment that empowers our workers to better life, better welfare, and better job prospect.

### AiSP CyberSec Conference 2024 15 May 2024

Organised by the Association of Information Security Professionals (AiSP), the AiSP SME Conference is a unique event that brings together organisations to discuss the importance of being cyber aware and stay protected. The event will provide our speakers with the opportunity to share their experience, skills and knowledge to show how cybersecurity can help companies to stay protected. AiSP aims to elevate cybersecurity awareness among companies and establish a self-sustaining ecosystem with active participation from government agencies, business associations, cybersecurity communities, and solutions provider.

Our theme for this year conference is “Sustaining growth and innovation securely in this challenging business environment”.

As part of AiSP Cybersecurity Awareness and Advisory Programme (CAAP), this event is for Singapore Enterprise and SMEs to know more about cybersecurity as a business requirement and how they can implement solutions and measures for cyber-resilience. CAAP hopes to elevate cybersecurity awareness as integral part of business owner's fundamentals and establish a self-sustainable support ecosystem programme with active participation from agencies, business associations, security communities and solutions provider.

**Debunking Myths about IMDA's Data Protection Trustmark!**

**MYTHS ABOUT THE DATA PROTECTION TRUSTMARK** **DEBUNKED**

Let us dispel some common misconceptions about the Data Protection Trustmark (DPTM) and learn how it can be a vital asset to achieve long-term success for your business!

The infographic consists of three sections, each with a myth crossed out by a red 'X' and a corresponding fact. 1. Myth: 'DPTM does not add value to my business'. Fact: '4 in 5 organisations prefer to procure from DPTM-certified businesses'. It also states that DPTM offers a competitive advantage and strengthens consumer trust. 2. Myth: 'DPTM is meant for large businesses'. Fact: '2 in 3 DPTM-certified organisations are SMEs and NPOs'. It states that DPTM enhances compliance with the PDPA. 3. Myth: 'Gaps identified will be highlighted to the PDPC'. Fact: 'Gaps or findings will be kept confidential and will not be reported to PDPC'. It also states that organisations will be given the opportunity to remediate any gaps and that DPTM demonstrates regulatory accountability.

The **Data Protection Trustmark (DPTM)** is a voluntary, enterprise-wide certification that is developed based on Singapore's Personal Data Protection Act (PDPA) & international standards, and serves as a badge of recognition that your business adopts accountable & responsible data protection practices.

With the DPTM providing assurance and increasing the competitive advantage of more than [220 organisations](#), let us debunk some of the myths surrounding the DPTM!

## Professional Course Development

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
