Event Venue: Plaza Singapura Atrium, Level 1

AiSP Events and Updates

AiSP is one of 12 Digital for Life (DfL) Champions to be awarded as a DfL Champion at the DfL Partners' Appreciation Event on 5 July

AiSP is one of 12 Digital for Life (DfL) Champions to be awarded as a DfL Champion at the DfL Partners' Appreciation Event on 5 July 2024 for its efforts in championing Singapore's Digital for Life (DfL) movement, which aims to help Singaporeans embrace digital as a lifelong pursuit and enrich their lives through digital technology. AiSP President Mr Tony Low represented AiSP and receive the Digital for Life (DfL) Champion from Digital for Life (DfL) Patron - President Tharman Shanmugaratnam on 5 July 2024. AiSP had reached out to more than 24,000 general public in the scam awareness and stay safe online. This award will not be possible without the strong support of our Corporate Partners, AiSP EXCO Members, AiSP Members and Student Volunteers who had been supporting AiSP in the DfL movement through the roadshows and community events. AiSP will continue to do more and outreach to the different community groups to raise awareness on the topic of cyber wellness and cybersecurity to create a safe cyberspace supported by a strong and vibrant cybersecurity ecosystem.

SEA CC Webinar – Cloud Security 31 July 2024

The Southeast Asia Cybersecurity Consortium will be organizing a series of webinars leading up to the SEA CC Forum 2024. The upcoming webinar will be focusing on Cloud Security where speakers will be sharing insights on the best practices for cloud security.

The BDDB is a free programme designed to help SMEs use data to gain valuable consumer insights and to grow their business through data analytics.

Previously, our BDDB programme catered only to SMEs in the B2C arena, but we have taken in feedback from the ground and upgraded the BDDB programme to cater to B2B SMEs – any SMEs, regardless of their nature of business, can now take their first step in data analytics to enhance their business and gain that competitive advantage!

On 7 March, softScheck APAC celebrates a milestone, announcing a strategic partnership with TÜV Rheinland APAC. Supported by AiSP and SGTech, the collaboration addresses cybersecurity challenges in APAC. Ms. Sabine Florian's keynote, representing SGC, emphasizes talent development. The partnership, blending ISO27001 consulting, PCI DSS, Cybersecurity Services, and more, taps into 100 experts, aiming to double the talent pool in two years.

Targeting 100 companies, softScheck APAC and TÜV Rheinland aim to enhance cybersecurity by 2024-2025, navigating the evolving threat landscape.

NTUC Mentorship Ecosystem Volunteer as an Industry Mentor

#EVERYWORKERMATTERS **ntuc**

Be a **mentor**
Inspire someone's growth

Mr. Michael Chang, Mr. Allen Tan, Mr. Gan Chuan Pheng, Mr. Noel Daniels, Mr. Perry Ong

The NTUC Mentorship Ecosystem is a one-stop resource and networking platform for mentees and mentors. It empowers mentees to navigate their careers and provides mentors with opportunities for personal development and to pay it forward.

Volunteer as an Industry Mentor. If you are:

- An experienced professional with at least 5 years of work expertise
- Well-connected with industry peers
- Ready to share your learnings and insights
- Ready to shape the future of youths and PMEs

Join us to reap the rewards of your mentorship endeavour:

- Develop coaching and mentorship skills
- Expand your industry and personal network
- Collaborate with fellow practitioners
- Make a lasting impact in the community

Volunteer as a mentor today!

On behalf of NTUC, we are keen to invite you to volunteer as an Industry Mentor under the NTUC Mentorship Ecosystem.

In our daily interactions with different segments of the workforce including youths, many have sounded out the need for career mentors. As a mentor, you can leverage on your industry and working experience to pay-it-forward and have meaningful conversations to share your expertise and guidance with individuals who would appreciate career navigation support and deeper insights into different roles in the workforce today. In return, as you support mentees, the NTUC Mentorship Ecosystem will support you with networks, training, and a community of peer support.

We sincerely hope you'll be a part of this movement and be a catalyst of change.

Click on [this link](#) to apply.

Please feel free to reach out to NTUC at ntumentorship@ntuc.org.sg.

CyberBoost Pre-Boost Accelerator Programme

What is CyberBoost Pre-Boost?

CyberBoost is a suite of supporting programs jointly organized by [NUS Enterprise](#) and [CSA](#), supported by [Plug and Play](#), that caters to companies at different stages of growth, providing different entry points for bespoke support. As part of [CyberBoost Pre-Boost programme](#), you will undergo a structured 3-month program training, with 6 months venture support, taking your idea to market and even commercialization! You would also be able to receive dedicated mentorship from industrial professionals who are practitioners, business consultation advice from NUS Enterprise experts and even CSA, as well as a space for you to work out of in order to develop your idea or product.

Additionally, workshops and training are integrated into the program to equip you with knowledge spanning across fundraising, market access and even polishing your deck to be pitch-perfect, priming your venture building and growth.

New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
