AiSP x Illumio Event Securing Tomorrow: Mastering Zero Trust Segmentation 26 March 2024

ORGANISED BY
AiSP
Association of Information Security Professionals

Securing Tomorrow: Mastering Zero Trust Segmentation

EVENT DETAILS

- 26 March 2024
- 6.30pm - 8.30pm
- Village Square, MBC10 level 10

SUPPORTED BY

GOVTECH
Illumio

JOHN KINDERVAG
Chief Evangelist
Illumio

In an era where cyber threats evolve at an alarming pace, organizations must adapt their security strategies to safeguard their digital assets effectively. Hosted by industry-leading experts, this event delves into the fundamental concepts of Zero Trust, emphasizing the critical need to contain the spread of breaches and ransomware across the hybrid attack surface when a breach occurs. Prevention and detection tools like firewalls, EDRs, or SIEM only give surface-level visibility into traffic flows that connect these applications, systems, and devices that are communicating across IT. They were not built to contain and stop the spread of breaches. Securing for tomorrow requires a different approach – the Zero Trust approach. Attendees will gain insights into the Zero Trust principles, which replace traditional perimeter-based security to focus on breach containment.

Win the Cyberwar with Zero Trust
Speaker: John Kindervag, Chief Evangelist, Illumio

Zero Trust Segmentation: Strategies, Best Practices, and Real-World Implementations

Moderator: Johnny Kho, AiSP President
Panelists:
John Kindervag, Chief Evangelist, Illumio
Stephen Gani, CISO Maxeon
Bernard Tan, Director, Cybersecurity Group, GovTech
Date: 26 March 2024, Tuesday
Time: 6.30PM – 8.30PM

AiSP CyberSec Conference 2024

AiSP CyberSec Conference 2024
15 May 2024

Organised by the Association of Information Security Professionals (AiSP), the AiSP SME Conference is a unique event that brings together organisations to discuss the importance of being cyber aware and stay protected. The event will provide our speakers with the opportunity to share their experience, skills and knowledge to show how cybersecurity can help companies to stay protected. AiSP aims to elevate cybersecurity awareness among companies and establish a self-sustaining ecosystem with active participation from government agencies, business associations, cybersecurity communities, and solutions provider.

Our theme for this year conference is “Sustaining growth and innovation securely in this challenging business environment”.

As part of AiSP Cybersecurity Awareness and Advisory Programme (CAAP), this event is for Singapore Enterprise and SMEs to know more about cybersecurity as a business requirement and how they can implement solutions and measures for cyber-resilience. CAAP hopes to elevate cybersecurity awareness as integral part of business owner's fundamentals and establish a self-sustainable support ecosystem programme with active participation from agencies, business associations, security communities and solutions provider.

Date : 15 May 2024

Time : 9AM – 3PM

Venue : Suntec Convention Centre

Guest of Honour:

Morning: AiSP Patron – Senior Minister of State, Ministry of Communications and Information & Ministry of National Development
- Mr Tan Kiat How

Professional Course Development

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
