### Debunking Myths about IMDA's Data Protection Trustmark!

The BDDB is a free programme designed to help SMEs use data to gain valuable consumer insights and to grow their business through data analytics. Previously, our BDDB programme catered only to SMEs in the B2C arena, but we have taken in feedback from the ground and upgraded the BDDB programme to cater to B2B SMEs – any SMEs, regardless of their nature of business, cannot take their first step in data analytics to enhance their business and gain that competitive advantage!

## New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
