

## AiSP Events and Updates

AJCCA Conference 2024  
17 October 2024

The International Conference on ASEAN-JAPAN Cybersecurity Community (IC-AJCC) was held in 2023 in Tokyo.

At the Conference, 8 associations of Southeast Asian Nations members and Japan agreed to a private sector cybersecurity collaboration and the ASEAN Japan Cybersecurity Community Alliance (AJCCA) was established.

This year, AJCCA Conference 2024 will be held in Singapore on 17 October 2024.

The ASEAN Japan Cybersecurity Community Alliance (AJCCA) is a collaborative initiative formed by nine leading cybersecurity communities from ASEAN nations and Japan.

AJCCA is dedicated to enhancing cybersecurity capabilities, information sharing, and mutual support among its member nations to address the evolving challenges in the digital landscape.

Date: 17 October 2024

Time: 9am - 4pm

Location: Suntec Convention & Exhibition Centre

### AiSP x wizlynx group x KnowBe4 – The Human Factor: Your Strongest Defence Against Next-Gen Cyber Threats 14 November 2024

Gartner reports that 93% of organisations are using or considering Generative AI (GenAI) at work. While beneficial, this technology also presents new cybersecurity challenges.

Cyber adversaries are using GenAI to create sophisticated social engineering attacks, including convincing phishing emails and deepfakes. Verizon's 2023 Data Breach Investigations Report reveals that 74% of data breaches stem from social engineering and human error.

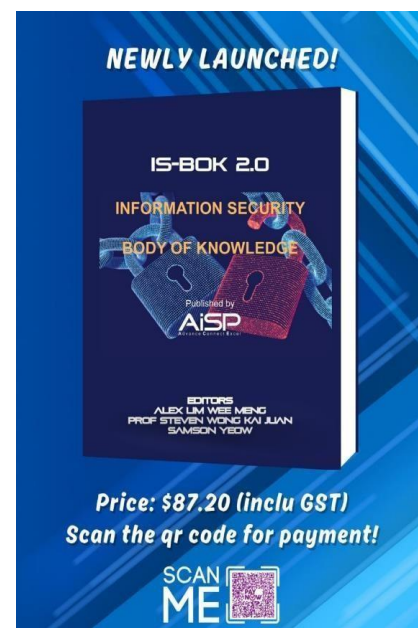

To combat these next-generation threats, organisations must build a strong security culture. This involves implementing robust technical defences and empowering employees to be the first line of defence against cyber-attacks.

On 14 November, join wizlynx group and KnowBe4 to learn how you can cultivate a resilient security culture in your organisation. Learn strategies to educate and empower your workforce, enabling them to make smarter security decisions and protect your organisation from evolving cyber threats.

Date: 14 November 2024, Thursday  
Time: 2.30PM – 6PM  
Venue: JustCo @ Marina Square

**STACK 2024 Developer Conference**  
6 – 7 November 2024

The image is a promotional graphic for the STACK 2024 Developer Conference. It features a dark background with vibrant, glowing geometric shapes in shades of blue, purple, and pink. The text "STACK Developer Conference is back!" is at the top. Below it, the "STACK CONFERENCE" logo is prominently displayed, along with "PRODUCED BY GOVTECH SINGAPORE". The dates "6 to 7 November 2024" and the location "Raffles Hotel and Convention Centre" are also included. A "Register Now" button is visible, along with the "Early Bird Price \$60000" (with a crossed-out "USD 1,200"). The graphic also lists "ENGAGING TOPICS" such as "Applied AI Innovation", "Cloud Technology", "Data and AI", "Digital Culture", "Egovernance and Cybersecurity", "Operations Transformation", and "Urban Technology". It features "FEATURED SPEAKERS" with four circular portraits and names: "Paul Tan", "Srinivas Reddy", "Lillian Sim", and "Scott Shiao". At the bottom, it promotes a "2-day Conference Pass (in-person)" for "USD 200" (with a crossed-out "USD 400") and another "Register Now" button.

### About STACK 2024

GovTech's biennial conference returns on 6-7 November, offering an exhilarating array of panels, talks, and workshop sessions.

Immerse yourself in the heart of Singapore's largest government-led developer conference, where you can forge connections across government, industry, and tech communities. ### NTUC Mentorship Ecosystem Volunteer as an Industry Mentor

On behalf of NTUC, we are keen to invite you to volunteer as an Industry Mentor under the NTUC Mentorship Ecosystem.

In our daily interactions with different segments of the workforce including youths, many have sounded out the need for career mentors. As a mentor, you can leverage on your industry and working experience to pay-it-forward and have meaningful conversations to share your expertise and guidance with individuals who would appreciate career navigation support and deeper insights into different roles in the workforce today. In return, as you support mentees, the NTUC Mentorship Ecosystem will support you with networks, training, and a community of peer support.

We sincerely hope you'll be a part of this movement and be a catalyst of change.

Click on [this link](#) to apply.

Please feel free to reach out to NTUC at [ntucmentorship@ntuc.org.sg](mailto:ntucmentorship@ntuc.org.sg).

### CyberBoost Pre-Boost Accelerator Programme

#### What is CyberBoost Pre-Boost?

CyberBoost is a suite of supporting programs jointly organized by [NUS Enterprise](#) and [CSA](#), supported by [Plug and Play](#), that caters to companies at different stages of growth, providing different entry points for bespoke support.

As part of [CyberBoost Pre-Boost programme](#), you will undergo a structured 3-month program training, with 6 months venture support, taking your idea to market and even commercialization! You would also be able to receive dedicated mentorship from industrial professionals who are practitioners, business consultation advice from NUS Enterprise experts and even CSA, as well as a space for you to work out of in order to develop your idea or product.

Additionally, workshops and training are integrated into the program to equip you with knowledge spanning across fundraising, market access and even polishing your deck to be pitch-perfect, priming your venture building and growth.

# New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.

**Special discount available for AiSP members, email [aisp@wissen-intl.com](mailto:aisp@wissen-intl.com) for details!**
